Total Tonnes of Plastic dripperline and vineyards recycled by MVI Customers in 2016/17FY:	<i>37 tonnes or 628 km dripperline. Plus 1 tonne of other plastic waste</i>
Lifecycle Greenhouse Gas Emission Savings from customer's plastic waste being used in the manufacture of recycled plastic products in Australia (As compared with virgin plastic products)* * GHG and Energy Factors Used in the Waste Reduction Model (WARM), US EPA, Feb 2016 https://www.epa.gov/sites/production/files/2016-03/documents/warm_v14_containers_packaging_non-durable_goods_materials.pdf	<i>39 MtCO₂-e</i>
Total Customer Voluntary Contributions from Recycling Rebates to McLaren Vale Biodiversity Project	<i>\$482.55 +\$50 (for tennis club)</i>

Sustaining Endeavour thanks McLaren Vale Irrigation, MVI Staff & Customers for supporting the Recycling and Rebate service, for their efforts in correctly retrieving plastic waste and for their generosity towards the McLaren Vale Biodiversity Group and a local tennis club.

The support of Manufacturing Sponsors, and generous rebates from Plastics Granulating Services made Sustaining Endeavour's Recycling and Rebate Service possible.
